**FAQ No.:** 12

**FAQ:** Can a Patient Be Restrained Face Down

---

If the medical staff of the facility determines it is necessary to restrain a patient in the prone position (face down), Posey Company recommends that there be constant one to one patient observation monitoring of that patient to prevent suffocation, aspiration of vomitus, or other injury.

For complete cleaning and use instructions for all Posey products, please refer to package insert instructions accompanying each product. Copies of all package insert instructions are available on the Posey website at [www.posey.com](http://www.posey.com).

We hope that this answers your questions. If you have any further questions, please feel free to call Posey Customer Service at (800) 44-Posey or (800) 447-6739.
