FAQ No.: 24

FAQ:

Is the Posey Company approved by the FDA to produce medical devices, and are the Posey Company's products approved by the FDA?

The FDA does not “approve” companies to produce medical devices, nor does it “approve” any medical device. In fact the FDA specifically prohibits any Company from advertising that the FDA approves them, or that the FDA approves any of the Company's products.

- The J. T. Posey Co. is registered with the FDA to produce medical devices.
- Posey Company's products are listed with the FDA as required.
- Posey Company submits pre-market notifications (510Ks) to the FDA for new products, as required.

To obtain a copy of J. T. Posey Co.'s FDA facilities registration number and/or a 510K number for a specific product, contact the Posey Company Customer Service Department at (800) 447-6739.
